

Brand Discovery Brief V2

Brand Overview

This practice is positioning itself as a high-end, relationship-driven dental experience focused on comprehensive, personalized care. It intentionally avoids volume-driven, insurance-based models and instead emphasizes artistry, trust, and long-term relationships.

Target Audience

High-value patients, busy professionals, and anxious individuals seeking comprehensive dental solutions. These patients prioritize quality, trust, and long-term outcomes over cost or speed.

Brand Positioning

A premium, relationship-first dental practice delivering personalized care through deep understanding, education, and clinical excellence.

Brand Personality

Understanding, skilled, and comforting. The tone is friendly yet professional, slightly luxurious, and rooted in authenticity.

Patient Experience

Patients should feel welcomed, safe, and heard. After visits, they should feel confident, inspired, and excited to continue care.

Visual Direction

Clean, calming, elegant, and professional. Inspired by brands like Apple and Nike. Balanced between modern and traditional.

Messaging

Clear, reassuring, and educational. The brand should communicate trust and individualized care.

Clarifying Questions

• What does success look like in 5–10 years? • What defines a perfect patient? • What makes your experience different from others? • What emotions should patients leave with? • What should your brand NEVER feel like?
