

Creative Dentistry

— OF BROOKLYN HEIGHTS —

WEBSITE BUILD DOCUMENT

Phase 2 — Full Site Architecture

Prepared for Dr. Mathew Bellafiore, Dr. Alexander Black & Dr. Rebecca Baer

Built from the Brand Discovery Brief + Official Website Copy Document

Version 2 · July 2026 · WeCapture Dental

SECTION 01

Intake Summary

Confirmed inputs, assumed defaults, and open gaps as of this draft.

This build is Phase 2 (full site) — the sitemap, page copy, and lead-capture forms are already largely written and one page (General & Preventive Care) is live on staging. This document reconciles that existing copy with the Brand Discovery Brief's strategy, brand system, and personas, and lays out the video, SEO, and developer plan needed to finish and launch the remaining pages.

Staging access note: *staging.creativedentistrybrooklyn.com disallows automated fetching (robots.txt), so this document is built from the provided Brand Discovery Brief and Official Website Copy PDF rather than a direct crawl of the live staging page. If you can share a screenshot or a PDF export of the staged General & Preventive page, I can fold a design QA note into Section 4 directly.*

Field	Value
Practice Name	Creative Dentistry of Brooklyn Heights (CDBH)
Build Phase	Phase 2 — Full Site (Phase 1 landing page stage appears to have been skipped; go straight to full-site QA)
Platform	CONFIRMED — WordPress
Lead Capture	GoHighLevel / WeCapture Portal — confirmed live: Contact form + Insurance Verification form already embedded as iframes
PMS	Not specified in provided documents — still open, please confirm (Dentrix Ascend, Eaglesoft, or other)
Address	185 Montague Street, 3rd Floor, Brooklyn Heights, NY 11201 (elevator entrance beside Chipotle)
Phone	(718) 875-9424 — call and text enabled
Email	CONFIRMED — hello@creativedentistrybrooklyn.com (replaces the "office_email" and "office@bellafioredds.com" placeholders found across the copy doc and staging footer)
Hours	Mon–Thu 8:00 AM–5:00 PM · Fri 8:00 AM–4:00 PM · Sat/Sun Closed
Languages	English, Spanish, Polish
Domain	CONFIRMED — creativedentistrybrooklyn.com (production). Staging: staging.creativedentistrybrooklyn.com

PRIMARY / SECONDARY PERSONAS (from Brand Discovery Brief)

Primary: The Established Professional — confident, busy, done choosing a dentist by insurance network, wants a trusted long-term relationship.

Secondary: The Anxious Returner — hasn't loved a dentist in years, needs reassurance before information. (*Inferred in the Brief; not yet confirmed with the doctors.*)

LEAD SERVICES (from service depth + Advanced Skill Sets signals in the copy)

- Dental Implants & Restorative Surgery — computer-guided, CBCT-planned
- Cosmetic Dentistry & Smile Makeovers — porcelain veneers, composite bonding
- TMJ Therapy & Masseter Botox — a genuine, low-competition local SEO opportunity per the SEO strategy notes
- Clear Aligner Therapy — Straumann ClearCorrect

TARGET GEO

Primary: Brooklyn Heights. Communities Served matrix (already drafted, hyper-localized, non-duplicate content per page): DUMBO, Cobble Hill & Carroll Gardens, Downtown Brooklyn, Boerum Hill, Gowanus.

TECHNOLOGY / TRUST SIGNALS

- 3Shape Trios Digital Scanner (no goopy impressions)
- High-Definition 3D CBCT Scans (computer-guided implant surgery)
- Biolase Waterlase Laser (gentle periodontal therapy)
- Notably absent: CEREC / same-day crowns — a deliberate content decision per the SEO notes, since a competitor already owns that term; confirm this is intentional, not a gap

PATIENT EXPERIENCE HIGHLIGHTS

- Living-room-style 3rd-floor lobby, greeted by name, Keurig beverage bar (coffee/tea/water/cider/hot chocolate)
- Massaging operatory chairs, cozy blankets, personalized music, window views, nitrous oxide
- Signature lavender-scented hot towel at the end of every visit

INSURANCE + FINANCING

Model: Out-of-network concierge for major commercial PPOs (practice files all claims); direct in-network with Delta Dental and CSEA.

Financing: Cherry and Sunbit, soft-credit-check monthly plans, available on in-office iPads.

Membership plan: Yes — \$575/year In-House Membership Plan: 2 cleanings, 2 exams, cancer screenings, fluoride, all routine X-rays, 1 emergency exam, flat 15% off all treatment, \$100 off in-office whitening.

ANXIETY APPROACH

Yes — nitrous oxide, pre-appointment anti-anxiety medication by prescription, sensory amenities (massaging chairs, blankets, music, hot towel), and an explicit promise to move at the patient's pace.

INCLUSIVITY SIGNALS

LGBTQ+ friendly practice and Transgender safe space (stated on Home, Values & Legacy, and Reviews pages); full ADA building compliance — accessible elevator, wide corridors, accessible restrooms; multilingual staff (English/Spanish/Polish).

VIDEO STATUS

Not stated in either provided document. Section 5 (Video Placement Map) assumes nothing has been shot yet and plans accordingly — please confirm shoot status so we can update slot statuses from "NOT YET SHOT" to real YouTube links.

SEMRUSH DATA

Not provided as a raw export. A written competitive SEO analysis was included in the copy document instead (3 competitors, head-to-head ranking factor matrix) — treated as a partial substitute in Section 3. A full SEMrush keyword export is still recommended within 30 days of launch.

STATUS LOG — RESOLVED SINCE V1

- Platform confirmed: WordPress.
- Real office email confirmed: hello@creativdentistrybrooklyn.com.
- Production domain confirmed: creativedentistrybrooklyn.com.
- Staff page: client has chosen to keep bios as placeholders for now and feature only the 3 doctors — no staff names/photos needed for this launch.
- Membership Plan FAQ gaps: client has confirmed these stay blank for now — not a launch blocker.
- Video: CONFIRMED SHOT — a hero video and testimonial videos are in hand (see Section 6, updated).
- Website Vision Survey received — summarized below and folded into Section 2 (Persona Map) and Section 5 (Staging Design QA).
- Final slogan confirmed: "Where Artistry Meets Care" — needs a global find-and-replace everywhere the old slogan still appears (copy doc footer + live staging footer, see Section 5).

STILL OPEN

- PMS (Dentrix Ascend / Eaglesoft / other) — not yet specified.

WEBSITE VISION SURVEY — DOCTOR'S OWN WORDS

Overall experience: "Calming, premium, friendly."

How a patient should feel on landing: "Knowledgeable, focused on comprehensive care, and also friendly and welcoming to all."

Must-have features: Doctor/team bios, online booking, a blog or content section.

Explicitly NOT this: "Not cluttered, not outdated, not overly corporate, not confusing."

If the site was perfect, patients would feel: "Confident that the practice can support their dental health with the highest quality work."

Reference Site	What They Liked
brooklynperiodontics.com	Liked the layout and photography, but flagged that office location and phone number are hard to find.
scarsdaledentalgroup.com	Nice imagery, quick and easy access to important information, easy to book and easy to find contact info.
wendodontics.com	Clean, modern, and makes it easy to book appointments.

Pattern the doctors noticed across all 3: "Clean layouts, friendly photography, easy booking buttons, and information about how to call and find the office location that is easy to locate — even if that is not consistently true across all of them."

DESIGN PROMPT ADDITION (for Claude Design)

- Doctor's visual reference direction: clean, uncluttered layout; friendly, warm photography (not clinical); booking and contact info (phone + address) surfaced prominently and repeatedly — the one recurring complaint across their own reference sites was buried contact info, so do not repeat that mistake here.
- Explicit avoid list: cluttered, outdated, overly corporate, confusing.
- Must-have features (bios, booking, blog) are already accounted for in Section 4's architecture — the Blog is the one gap to close before launch.

SECTION 02

Persona Map

Extracted from the Brand Discovery Brief and mapped to pages, CTAs, and video needs.

Persona	Fear / Motivation	How They Find Us	Primary Pages	CTA Language	Best Video Type
The Established Professional (Primary)	Fear: being rushed, upsold, or treated like a chart number. Motivation: confidence in who's holding the drill; long-term relationship.	Google search, referral, neighborhood Instagram/Nextdoor	Home, About/Doctors, Cosmetic, Implants	"Book Your Appointment Online" / "Meet Dr. [Name]"	Brand/Office Tour + Provider Intro
The Anxious Returner (Secondary, inferred)	Fear: pain, judgment, being unheard. Motivation: something finally forced the visit (pain, spouse, chip).	Google/Yelp reviews, "meet the doctor" content	Home, Values & Legacy (anxiety section), First Visit, Reviews	"Schedule Your Visit Online" (soft, reassuring copy first)	Patient Testimonials + Office Tour
The Comprehensive-Care Seeker (from Brief, service-mix inferred)	Fear: being bounced between specialists with no continuity. Motivation: one team that can finish a complex case.	Direct search for implants/prosthetics, referral	Implants, Dentures, Smile Gallery, About/Doctors	"Book Your Consultation Online"	Procedure Explainer + Before & After Showcase

DESIGNER / COPY NOTES

- Persona B and C were flagged as inferred, not client-confirmed, in the Brand Discovery Brief — worth a 5-minute check with the doctors before locking messaging tracks around them.
- The copy already speaks fluently to Persona A (professional, efficient, no-fluff) and, in the anxiety/comfort sections, to Persona B. Persona C is served mainly by the Implants and Dentures pages' emphasis on credentials — consider adding a short 'complex case' framing to the Smile Gallery page to speak to her directly.

SECTION 03

SEO / GEO Keyword Map

COMPETITIVE SEO LANDSCAPE (reconciling both provided sources)

The Brand Discovery Brief profiled three competitors on brand positioning (Brooklyn Heights Dental, Dentistry at the Heights, Brooklyn Comfortable Dental Care). The official copy document's SEO strategy notes profiled a partially different set on ranking factors — Brooklyn Heights Dental (overlapping), The Smilist – Brooklyn Heights (a 115-location DSO with a powerful backlink profile and strong insurance keyword coverage), and Heights Dental (branded as a holistic practice, but with thin, generic service content). Combined, the takeaway is consistent: no competitor combines CDBH's content depth, its TMJ/Masseter Botox specialization, or its named-brand technology and premium-materials keyword targeting (Biolase Waterlase, 3Shape Trios, Straumann ClearCorrect, Allergan Botox).

Ranking Factor	Brooklyn Heights Dental	The Smilist	Heights Dental	Creative Dentistry (this site)
Content Depth	Moderate	Programmatic / thin	Very thin	High — 500+ words + 5+ FAQs per page
TMJ / Masseter Botox	Low	Low	Low	High — dedicated page, low-competition term
Brand-Name Hardware Keywords	CEREC	Generic	Generic	Biolase, 3Shape Trios, Straumann, Allergan
Uninsured Financing	CareCredit only	N/A	N/A	Cherry + Sunbit + dedicated Membership Plan page

Important guardrail already noted in the copy doc itself: do NOT create the 6 community pages as copy-pasted clones with the neighborhood name swapped — Google's algorithm treats that as a doorway-page violation. Each of the 6 already uses a distinct commute/transit narrative and persona angle; keep that pattern for any future geo pages.

PAGE-LEVEL KEYWORD MAP

Page	Slug	Primary Keyword	Secondary Keywords
Home	/	Dentist in Brooklyn Heights	Comprehensive dental care, multi-doctor practice
About Us	/about	Brooklyn Heights dental practice since 1961	Private practice, family-owned
Meet the Doctors	/about/doctors	Brooklyn Heights dentist Dr. Bellafore	DDS credentials, Pankey/Dawson/ICOI
Our Technology	/about/technology	Digital dentistry Brooklyn Heights	3Shape Trios, CBCT, Biolase Waterlase

Page	Slug	Primary Keyword	Secondary Keywords
General & Preventive	/services/general-preventative	Family dentist Brooklyn Heights	Cleanings, exams, digital X-rays
Cosmetic Dentistry	/services/cosmetic	Cosmetic dentist Brooklyn Heights	Veneers, bonding, smile makeover
Dental Implants	/services/implants	Dental implants Brooklyn Heights	Computer-guided implants, CBCT
Clear Aligners	/services/clear-aligners	Invisalign alternative Brooklyn Heights	Straumann ClearCorrect
Dentures & Partial	/services/dentures-partial	Dentures Brooklyn Heights	Prosthodontics, implant overdentures
Periodontal Care	/services/periodontics	Gum disease treatment Brooklyn Heights	Biolase Waterlase, scaling
TMJ & Masseter Botox	/services/tmj	TMJ treatment Brooklyn Heights	Masseter Botox, jaw pain, migraines
Root Canal Therapy	/services/root-canals	Root canal Brooklyn Heights	Endodontics, tooth pain relief
Emergency Dental	/emergency-dental	Emergency dentist Brooklyn Heights	Same-day, toothache, broken tooth
Insurance	/patients/insurance	Out-of-network dentist Delta Dental	PPO claims, CSEA
Financing	/patients/financing	Dental financing Brooklyn Heights	Cherry, Sunbit
Membership Plan	/patients/membership-plan	Dentist no insurance Brooklyn Heights	\$575/yr, 15% off
Communities (x6)	/communities/*	Dentist near [neighborhood]	Transit + persona-specific, unique per page

SEO/DEV NOTES

- Every service page already includes a 5–7 question FAQ block — build FAQ schema markup for all of them at launch (see seo-geo-rules.md format).
- Meta titles and meta descriptions are placeholders ("page_title | descriptors_keywords") on every single page in the copy doc — these need to be written before launch, not left as template text.
- Add LocalBusiness/Dentist schema on the homepage using the confirmed NAP once the real email is in hand.

SECTION 04

Full Site Architecture (Phase 2)

Reconciling the existing sitemap + copy against brand system, video, and content-status.

The sitemap and page copy below already exist in the Official Website Copy document. This table is the build map: what's copy-complete, what's still a placeholder, and where the brand system (Section 7 of the Brand Discovery Brief — Brooklyn Navy / Bridge Gold / Lora + Inter / skyline-tooth motif) needs to be applied as each page moves from copy to design in Claude Design.

Page	Slug	Copy Status	Notes
Home	/	Complete	Hero + 8 service hubs + doctor intros + differentiation + FAQ + CTA — all written
About Us	/about	Complete	Hub page routing to Values, Doctors, Staff, Technology
Our Values & Legacy	/about/values-legacy	Complete	1961 heritage story, anxiety management section
Meet the Doctors	/about/doctors	Complete	Full bios for all 3 doctors, personal detail included
Meet the Staff	/about/staff	Placeholder	3 role slots with bracketed [Insert Staff Name] — needs real names + bios + photos
Our Technology	/about/technology	Complete	3Shape Trios, CBCT, Biolase Waterlase
Services (hub)	/services	Complete	Routes to all 8 service pages + financing overview
General & Preventive Care	/services/general-preventative	Complete — LIVE ON STAGING	First page built; use as the design system reference for remaining pages
Cosmetic Dentistry	/services/cosmetic	Complete	Veneers, bonding, before/after teaser
Dental Implants	/services/implants	Complete	CBCT-guided, full-mouth reconstruction
Clear Aligners	/services/clear-aligners	Complete	Straumann ClearCorrect, digital preview
Dentures & Partials	/services/dentures-partials	Complete	Complete/partial/implant-supported
Periodontal Care	/services/periodontics	Complete	Biolase Waterlase laser therapy

Page	Slug	Copy Status	Notes
TMJ & Masseter Botox	/services/tmj	Complete	Flagged as a high-value, low-competition SEO target
Root Canal Therapy	/services/root-canals	Complete	Endodontics, conservative approach
Emergency Dental	/emergency-dental	Complete	Same-day triage messaging
Patient Information (hub)	/patients	Complete	Routes to First Visit, Insurance, Financing, Membership
First Visit	/patients/first-visit	Complete	Step-by-step onboarding, what-to-bring, cancellation policy
Insurance	/patients/insurance	Complete	PPO out-of-network + Delta Dental/CSEA + verification form embed
Financing	/patients/financing	Complete	Cherry + Sunbit
In-House Membership Plan	/patients/membership-plan	Mostly complete	6 of 13 FAQ answers still blank placeholders
Smile Gallery	/smile-gallery	Copy complete, images pending	4 category sections written; "(Insert images here)" placeholder for the actual case grid
Reviews	/reviews	Complete	Needs the Google Reviews WordPress plugin installed + configured
Contact	/contact	Complete	Contact form + Insurance Verification form already embedded (GHL)
Communities: Brooklyn Heights	/communities/brooklyn-heights	Complete	Hyper-localized, unique commute/persona angle
Communities: DUMBO	/communities/dumbo	Complete	Same
Communities: Cobble Hill & Carroll Gardens	/communities/cobble-hill-carroll-gardens	Complete	Same
Communities: Downtown Brooklyn	/communities/downtown-brooklyn	Complete	Same
Communities: Boerum Hill	/communities/boerum-hill	Complete	Same
Communities: Gowanus	/communities/gowanus	Complete	Same

Page	Slug	Copy Status	Notes
Privacy Policy	/privacy-policy	Legal boilerplate	Recommend attorney review before launch
Terms of Service	/terms-conditions	Legal boilerplate	Recommend attorney review before launch
Accessibility Statement	/accessibility-statement	Legal boilerplate	Recommend attorney review before launch

BLOG (not yet in the sitemap — required per Phase 2 standard)

- The copy doc's sitemap does not include a Blog, but Phase 2 architecture requires a minimum of 3 posts at launch for SEO. Recommend adding: "Dental Implants in Brooklyn Heights: What to Expect and How Much It Costs," "5 Signs You Need a Root Canal," and "Creative Dentistry of Brooklyn Heights: Meet Our Team."
- Suggested URL: /blog, linked from primary nav and footer.

BRAND SYSTEM APPLICATION (per Brand Discovery Brief Section 7)

- Apply Brooklyn Navy (#1B2D5B) and Bridge Gold (#F5B800) exactly as documented — Bridge Gold as accent only, never a dominant field color.
- Lora for every H1/H2, Inter for body and UI — this should already be reflected on the live General & Preventive staging page; use it as the template for the remaining 28 pages.
- Carry the skyline-tooth line-art motif into section dividers and the footer on every page, not just the header logo — this was flagged in the Brief as currently underused.
- Photography direction ("Kinfolk meets Condé Nast Traveler") applies directly to the Smile Gallery, About/Doctors, and Communities pages — avoid clinical stock imagery entirely.

SECTION 05

Staging Design QA

Reviewed directly from the client-provided screenshots of the live /general-preventive/ page.

The staged General & Preventive Care page is, overall, a strong, faithful build of the brand system: Lora serif headlines in Brooklyn Navy, Bridge Gold accents used as highlights rather than fields, cream backgrounds, checkmark and numbered-step patient-qualifier sections, and genuinely editorial "Kinfolk-meets-Condé-Nast" photography in the Smile Gallery preview. The items below are the specific inconsistencies worth fixing before this template is rolled out to the remaining 28 pages.

Issue	What We See	Fix
Footer CTA buttons are green	Both "Book a Visit" and "Call the office" render in green, not Bridge Gold (#F5B800) — the only place on the page this happens	Recolor to Bridge Gold to match every other CTA on the page
Brand name inconsistency: "at" vs. "of" Brooklyn Heights	Header logo reads "Creative Dentistry AT BROOKLYN HEIGHTS"; footer copyright reads "Creative Dentistry at Brooklyn Heights" — both conflict with the official name "Creative Dentistry OF Brooklyn Heights" used in the brand guidelines and logo lockup	Swap in the correct logo file (CTD_Stacked / CTD_wordmark, which already say "OF") and fix the copyright line
Old slogan still live in the footer	Footer brand statement reads "Restorative dentistry for the individual. Rooted in Brooklyn..."	Confirmed — replace with "Where Artistry Meets Care" sitewide
Placeholder email still live in the footer	Shows "office@bellafioredds.com"	Replace with hello@creativedentistrybrooklyn.com sitewide
Inline text links are pink/red	"Insurance page," "Membership Plan," "Cherry," "Financing page" links in the "Why It Matters" section render in a pink/red not present anywhere in the documented palette	Recolor to Hudson Blue (#4A7BA7) or Bridge Gold to stay on-palette
Header logo renders monochrome/black	Top-left logo appears black/grayscale rather than Brooklyn Navy or full color	Confirm intentional; if not, swap to the navy or full-color lockup
Minor copy punctuation gap	"...to maximize your reimbursement See our dedicated Insurance page..." is missing a period before "See"	One-line copy fix

WHAT'S ALREADY WORKING WELL — KEEP THIS

- Lora headlines in Brooklyn Navy paired with Inter body copy — exactly per the brand guidelines.
- Gold circular numbered steps ("Your Preventive Visit Experience") and gold checkmarks ("Who Is Preventive Care For?") are a nice, distinctive pattern-language — carry it to every service page.
- The Smile Gallery preview photography (brownstone door, living-room-style office, warm doctor/patient moment) is genuinely on-brief for the "Kinfolk meets Condé Nast Traveler" direction — more of this, less of anything clinical.
- FAQ accordion styling (Lora questions, gold plus icon) is clean and matches the "calming, premium, friendly" experience the doctors asked for in the Vision Survey.

SECTION 06

Video Placement Map

Hero and testimonial video are confirmed shot — remaining slots are still planned as NOT YET SHOT.

Page	Slot	Video Type	Status
Homepage	Hero (above fold)	Brand/Office Tour or Provider Intro	SHOT — confirmed in hand
Homepage	Meet the Doctor section	Provider Intro (Dr. Bellafigore, lead)	Confirm if covered by hero footage or still needed
Homepage	Testimonial spotlight	1 featured patient testimonial	SHOT — confirmed in hand
Meet the Doctors	Hero / each doctor block	3x Provider Intro (Bellafigore, Black, Baer)	Confirm if covered by hero footage or still needed
Meet the Staff	Team section	Team culture clip	NOT YET SHOT (staff page on hold per client)
Every service page (x8)	Above the fold	Procedure explainer specific to that service	NOT YET SHOT
Cosmetic Dentistry	After procedure explainer	Before & After showcase	NOT YET SHOT
Implants	After procedure explainer	Before & After showcase	NOT YET SHOT
Smile Gallery	Full gallery	Before & After showcase reel	NOT YET SHOT
Testimonials / Reviews	Full video wall	Minimum 3 patient testimonials	SHOT — confirmed in hand (verify quantity ≥3)
Contact	Optional ambient loop	15–30 sec warm office footage	NOT YET SHOT
Footer / Follow Us (sitewide)	Social proof section	Hype/social reels	NOT YET SHOT

Client confirmed a hero video and testimonial videos are shot and in hand. Please share the YouTube links (or raw files) so Section 6 can be updated with real embed URLs, and confirm whether the hero footage also covers the "Meet the Doctor" homepage section and the Meet the Doctors page, or whether those still need dedicated Provider Intro clips per doctor.

VIDEO SHOT LIST — PRIORITY ORDER

Priority 1 (before Phase 2 launch):

☐ Brand/Office Tour (60–90 sec) — lobby, Keurig bar, treatment rooms, massaging chairs, lavender towel moment

☐ Provider Intro — Dr. Bellafiore (lead doctor, homepage hero candidate)

Priority 2 (within 60 days of launch):

☐ Provider Intro — Dr. Black and Dr. Baer

☐ 3 Patient Testimonials (with signed release)

☐ Implants and Cosmetic procedure explainers (the two lead/premium services)

Priority 3 (ongoing):

☐ Remaining 6 service explainers

☐ Before & After case footage as new cases complete

☐ Hype/social reels, 1–2/month

SECTION 07

Placeholder Asset List

For any section needing a visual before real photography/video is available.

Doctor photos — do not AI-generate. Dr. Bellafiore, Dr. Black, and Dr. Baer are named, real people. Generating an AI likeness and presenting it as their photo would misrepresent them to patients. Use a text-only bio block or a simple brand-colored placeholder graphic (e.g. initials on a Navy field) on the Doctors page until real headshots are shot — never a synthetic "stand-in" portrait.

Asset	Prompt (Higgsfield primary; GPT Image fallback)	Spec
Homepage hero background	"Bright, modern dental office interior, warm lighting, Brooklyn Navy (#1B2D5B) and Bridge Gold (#F5B800) accents, professional and calming, no people visible, architectural photography, 16:9"	16:9, 1920x1080 min
Treatment room	"Modern dental treatment room, large window with natural light, massaging dental chair, cozy blanket detail, Brooklyn Navy accent trim, no patients or staff, architectural interior photography, wide angle"	16:9 or 4:3
Team member photos (Staff page — role only, no names yet)	"Professional dental team member portrait, [dental hygienist / dental assistant / patient care coordinator], scrubs in navy or cream, warm smile, dental office background, clean headshot, natural lighting"	1:1, 600x600 min — regenerate per real name once hired/confirmed
Office exterior / building entrance	"Multi-story Brooklyn brownstone-adjacent office building entrance, elevator lobby, professional signage, daytime, architectural photography, ultra-realistic"	16:9
Cosmetic / smile close-up (Smile Gallery placeholder only, until real cases are photographed)	"Close-up of healthy natural smile, soft focus, lifestyle beauty photography, clean and aspirational" — label clearly as placeholder, replace with real patient cases with consent	16:9 or 1:1

ASSET REPLACEMENT TRACKER

- [] Hero background → Brand/Office Tour video (YouTube: TBD)
- [] Doctor portraits ×3 → Real photos from shoot (date: TBD) — never AI-substituted
- [] Staff photos ×3 → Real photos once names/roles are confirmed
- [] Treatment room → Real photos from shoot
- [] Testimonial videos ×3 → YouTube links TBD
- [] Smile Gallery case grid → Real before/after photos with signed patient releases

SECTION 08

Developer / Builder Handoff Notes

Item	Detail
Platform	WordPress (assumed — please confirm)
Theme/Builder	Elementor Pro or equivalent block builder recommended for the page-section structure already implied by the copy doc's bracketed [H1]/[H2]/[BODY] tagging
Lead Capture	GoHighLevel (WeCapture Portal) — Contact form (cSWhsRnaU7OYpmQqnDly) and Insurance Verification form (eAKLSv69f74ey5SOrwls) are already built and embedded as iframes; carry both over as-is
PMS	Not specified — confirm (Dentrix Ascend, Eaglesoft, other)
Reviews	Google Reviews WordPress plugin — page copy explicitly calls for the widget; needs installing and connecting to the practice's Google Business Profile

PLUGINS / TOOLS TO INSTALL

- ☐ Yoast SEO or RankMath
- ☐ WP Rocket or LiteSpeed Cache
- ☐ Elementor Pro (or confirmed builder)
- ☐ GHL form embed (already in use)
- ☐ Google Reviews plugin (required per copy doc)
- ☐ MonsterInsights (GA4 connection)
- ☐ UpdraftPlus (backups)
- ☐ Really Simple SSL
- ☐ HIPAA-aware forms plugin if any PHI is ever collected via web form

INTEGRATIONS TO SET UP

- ☐ Google Analytics 4
- ☐ Google Search Console
- ☐ Google Tag Manager
- ☐ GoHighLevel (confirmed, already embedded)
- ☐ Google Business Profile linked to the website
- ☐ Meta Pixel if running paid social

CRITICAL PRE-LAUNCH FIXES

- ☐ Replace "office_email" / "office@bellafioredds.com" placeholders sitewide with hello@creativedentistrybrooklyn.com (CONFIRMED)

- [] Replace "page_title | descriptors_keywords" and "meta_description_here" placeholders on every page with real, unique SEO titles/descriptions
- [] Global find-and-replace the old slogan ("Restorative dentistry for the individual") with the final slogan "Where Artistry Meets Care" (CONFIRMED) — see live footer in Section 5
- [] Fix the 7 Staging Design QA items in Section 5: green footer buttons → Bridge Gold, "at" → "of" Brooklyn Heights (logo + copyright), pink/red inline links → Hudson Blue or Gold, confirm header logo color, fix missing punctuation
- [] Staff page and Membership Plan FAQ gaps: confirmed on hold by client — not launch blockers
- [] Confirm final production domain redirect/DNS cutover from staging.creativedentistrybrooklyn.com to creativedentistrybrooklyn.com (CONFIRMED domain, cutover still to be scheduled)

SCHEMA MARKUP

LocalBusiness/Dentist schema on the homepage; FAQ schema on all 8 service pages (each already has a 5–7 question FAQ block ready to markup) plus the Membership Plan and First Visit pages; Review schema on the homepage and Reviews page once the Google Reviews plugin is live.

TECHNICAL SEO CHECKLIST

- [] Site loads in under 3 seconds on mobile
- [] SSL active (HTTPS)
- [] XML sitemap generated + submitted to GSC
- [] robots.txt configured (confirm it does not block Google — currently blocks generic bots including automated fetch tools, which is fine for staging but must allow Googlebot at launch)
- [] Canonical tags on all pages
- [] 301 redirects mapped if migrating from any prior domain
- [] GA4 + GSC installed and verified
- [] Images compressed (WebP preferred)
- [] Mobile responsive on iOS + Android
- [] Click-to-call phone number visible on mobile header and footer

SECTION 09

Post-Launch Checklist

WEEK 1

- ☐ Verify all forms (Contact, Insurance Verification) deliver to the correct inbox once the real office email is live
- ☐ Submit XML sitemap to Google Search Console
- ☐ Confirm Google Business Profile is linked and NAP matches exactly
- ☐ Spot-check every page for the placeholder fixes listed in Section 7

MONTH 1

- ☐ Publish the 3 launch blog posts (Section 4)
- ☐ Begin requesting Google reviews from recent patients
- ☐ Confirm at least Priority 1 video (Brand Tour + Dr. Bellafiore intro) is shot and live

WITHIN 30–60 DAYS

- ☐ Run a full SEMrush keyword/competitor export — the copy doc's narrative SEO analysis should be validated against real data
- ☐ Add Priority 2 video (remaining doctor intros, 3 testimonials, implant/cosmetic explainers)
- ☐ Confirm the 3 blank Membership Plan FAQ answers and any other outstanding copy gaps are filled

ONGOING

- ☐ 1–2 new blog posts per month
- ☐ Rolling video content per the Shot List priority order
- ☐ Quarterly review of the 6 Communities Served pages to keep local/transit details current

SECTION 10

Confirmed Details & Remaining Follow-Ups

All nine open items from V1 have been confirmed by the client (see the Status Log in Section 1 and the Website Vision Survey summary). Only a short, narrow list remains before Claude Design can move page-by-page through the rest of the site.

- 1 Confirm the PMS in use (Dentrix Ascend, Eaglesoft, or other) for the developer handoff notes.
- 2 Share the actual YouTube links (or raw files) for the confirmed hero and testimonial videos so Section 6 can carry real embed URLs instead of placeholders.
- 3 Confirm whether the shot hero footage also covers the homepage "Meet the Doctor" section and the Meet the Doctors page, or whether dedicated per-doctor Provider Intro clips are still needed.
- 4 Approve the 7 Staging Design QA fixes in Section 5 (footer button color, "at"/"of" naming, slogan swap, footer email, link color, logo color, punctuation fix) so the developer can action them before the remaining 28 pages are built from this template.

Once the open items above are resolved, this document is ready to hand to Claude Design page-by-page, starting with the Homepage and using the live General & Preventive Care staging page as the visual reference point.
